2026-2027 hunting seasons for moose

Maintaining restrictions in zone 17

Based on the results of the 2021 [aerial surveys](#) and in compliance with obligations under the James Bay and Northern Quebec Agreement (JBNQA), moose hunting activities in zone 17 will be limited to harvesting by Indigenous people for subsistence hunting, until further notice. The decline in the population of moose observed in this area implies a decrease in harvesting.

Hunting dates are established based on the zone where hunting is permitted and the type of weapon used.

Modifications may be made to authorized periods at any time if required by circumstances. It is your responsibility to comply with the rules in effect before engaging in your activity.

Starting in 2026, in several zones, moose hunting will no longer operate under a system of alternating permissive and restrictive years.

In zones 1 to 12, 14 to 16, 22, 26 and 27, as well as in wildlife reserves and certain ZECs, the hunter must now have obtained, through the draw, a moose without antlers hunting licence (any moose with antlers less than 10 cm) in order to harvest a moose without antlers.

In zones 13, 18 and 28, the alternating-year system will remain in effect. Moose without antlers hunting will therefore be closed in 2026 (restrictive year) and open in 2027 (permissive year). However, in zone 13, it will also be open during the bow and crossbow hunting season in 2026.

Lastly, in zones 19 south and 29, hunting will be open every year for all segments, with no requirement to hold a special licence for moose without antlers hunting.

Specifications on the hunting zones

[Hunting may be prohibited](#) in certain territories within a given zone. If it is permitted, the conditions may differ from those of the hunting zone in which those territories are located. You will need to communicate with the person or group responsible for the territories in question to find out the rules.

To find out [what to do before, during and after hunting](#) moose, refer to the rules for this species.

Hunting seasons for moose

Crossbow and bow hunting seasons

During the bow and crossbow hunting seasons, the moose without antlers hunting licence is not

required in the following zones:

- **In 2026 and 2027:** in zone 13, the parts of the zone included in zone 19 south and in zone 29.
- **In 2027 only:** in zones 18 and 28.

Zone where hunting is permitted	2026 hunting season	2027 hunting season
1, 2, 10 West, 11 West, 13, 15	From September 26 to October 4, 2026	From September 25 to October 3, 2027
3, 4, 5, 6, 8, 9	From October 3 to October 9, 2026	From October 2 to October 8, 2027
7	From October 3 to October 16, 2026	From October 2 to October 15, 2027
10 East, 11 East	From September 26 to October 12, 2026	From September 25 to October 11, 2027
12, 14, 26, 27	From September 19 to October 4, 2026	From September 18 to October 3, 2027
16, 18, 28	From September 12 to September 20, 2026	From September 11 to September 19, 2027
Northwest part of 19 South	From August 29 to September 6, 2026	From August 28 to September 5, 2027
East part and west part of 19 South (except the northwest part), 29	From September 5 to September 13, 2026	From September 4 to September 12, 2027

Bow hunting seasons

Zone where hunting is permitted	2026 hunting season	2027 hunting season
22	From September 5 to September 13, 2026	From September 4 to September 12, 2027

Firearms, crossbow and bow hunting seasons

During the firearm, bow and crossbow hunting seasons, the moose without antlers hunting licence is not required in the following zones:

- **In 2026 and 2027:** in the parts of the zones included in zone 19 south and in zone 29.
- **In 2027 only:** in zones 13, 18 and 28.

Note: The use of crossbows is prohibited in zones 22, 23 and 24.

East part of 19 South	From September 19 to November 1, 2026	From September 18 to October 31, 2027
West part of 19 South (except the northwest part), 29	From September 19 to October 18, 2026	From September 18 to October 17, 2027
Northwest part of 19 South	From September 12 to October 12, 2026	From September 11 to October 11, 2027
22	From September 19 to October 12, 2026	From September 18 to October 11, 2027

2026-2027 hunting seasons for white-tailed deer

Hunting dates are established based on the zone where hunting is permitted, the type of weapon used, the sex of the animal and its maturity.

Changes to the authorized periods and segments may be made at any time as required. It is your responsibility to abide by the terms and conditions in effect before you practice your activity. You can contact the Ministère's customer service department for confirmation.

Specifications on white-tailed deer hunting zones

In wildlife reserves, some ZECs, and some outfitters with exclusive rights, the hunting rules for white-tailed deer may differ from those in the hunting zone in which they are located. Consult the [specific rules for these territories](#) and contact the person or group responsible for the territory in question to find out which rules apply.

In the Macpès territory (zone 2), white-tailed deer hunting with crossbow and bow only is permitted from October 3 to 16 in 2026, and from October 2 to 15 in 2027.

If you hunt in zones 6 North and 6 South, you must comply with the [antler restriction \(AR\)](#) standard for deer with antlers (7 cm or more).

Zone 13 Southwest is defined as the portion of zone 13 located south of the following boundary: route 101, chemin Kipawa and the R0819 forest road. The harvesting rules for white-tailed deer in zone 13 Southwest apply to the Dumoine, Maganasipi and Restigo ZECs.

For hunting white-tailed deer with antlers (7 cm or more), hunting zones do not include islands and islets of the St. Lawrence River downstream of the pont Pierre-Laporte included in these zones.

Hunting of deer with or without antlers is permitted on the islands in the following zones:

- Zone 2 East: île du Bic, île Saint-Barnabé;
- Zone 2 West: île aux Lièvres, île Verte;
- Zone 3 East: île aux Grues, île aux Oies, île Patience, île de la Sottise, île Brothers, île Longue, île du Cheval, île Ronde, île au Canot, île à Deux Têtes, île Sainte-Marguerite, battures aux Loups Marins;
- Zone 27 East: île aux Coudres;
- Zone 27 West: île d'Orléans, île au Ruau, île Madame.

To find out [what to do before, during and after hunting](#) white-tailed deer, refer to the rules for this species.

2026-2027 hunting seasons for black bear

Hunting dates are established based on the zone where hunting is permitted and the type of weapon used.

Changes to the authorized periods and segments may be made at any time as required. It is your responsibility to abide by the terms and conditions in effect before you practice your activity.

Specifications on the hunting zones

[Hunting may be prohibited](#) in certain territories within a given zone. If it is permitted, the conditions may differ from those of the hunting zone in which those territories are located. You will need to communicate with the person or group responsible for the territories in question to find out the rules.

In the Macpès territory (zone 2), black bear hunting with a crossbow or bow is permitted, but hunting with a firearm is prohibited.

An organization managing a ZEC may, in a hunting area, prohibit the hunting of black bear during a part of the season or during the entire season in the zone where the ZEC is located.

To find out [what to do before, during and after hunting](#) black bear, refer to the rules for this species.

2026-2028 hunting seasons for small game

Hunting dates are established based on the zone where hunting is permitted, the type of weapon used, the sex of the animal and its maturity.

Changes to the authorized periods and segments may be made at any time as required. It is your responsibility to abide by the terms and conditions in effect before you practice your activity.

[Hunting may be prohibited](#) in certain territories within a given zone. If it is permitted, the conditions may differ from those of the hunting zone in which those territories are located. You will need to communicate with the person or group responsible for the territories in question to find out the rules.

In the Macpès territory (zone 2), small game hunting with a crossbow or bow, hare and eastern cottontail snaring, small game hunting with a bird of prey are permitted, but hunting with a firearm is prohibited.

To find out [what to do before, during and after hunting](#) small game, refer to the rules for this species.

To find out the rules applicable from April 1, 2024, to March 31, 2026, consult the [regulations \(PDF 265 Kb\)](#) in force for that period.

Eastern cottontail, Arctic hare and snowshoe hare

In the Îles-de-la-Madeleine (zone 21), hunting for snowshoe hares is prohibited. However, on Île Havre Tobert, a short hunting season takes place from November 14 to December 6, 2026, and from November 20 to December 12, 2027. For more information, please [contact the regional office](#) (in French only).

2026-2027 hunting season for frogs

Hunting dates are established based on the zone where hunting is permitted, the type of weapon used, the sex of the animal and its maturity.

Changes to the authorized periods and segments may be made at any time as required. It is your responsibility to abide by the terms and conditions in effect before you practice your activity.

Specifications on the hunting zones

In some zones, hunting may be prohibited in [some territories](#).

To find out [what to do before, during and after hunting](#) small game, refer to the rules for this species.

Hunting seasons

Leopard frog, green frog and bullfrog

A specific frog permit, for residents only, is required to hunt these amphibians. A hunter's certificate is not required to obtain this permit.

Zone where hunting is permitted	Gear	2026 hunting season	2027 hunting season
1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 18, 19 South, 20, 21, 26, 27, 28, 29	Deadfall, barrier, stinger, dip net, pit, hook and hand	July 15 to November 15, 2026	July 15 to November 15, 2027

2026-2028 hunting seasons in wildlife reserves

Hunting dates are established based on the zone where hunting is permitted, the type of weapon used, the sex of the animal and its maturity.

Changes to the authorized periods and segments may be made at any time as required. It is your responsibility to abide by the terms and conditions in effect before you practice your activity.

See [2024-2026 hunting seasons \(PDF 296 Kb\)](#)

Specifications on the hunting zones

A wildlife reserve may choose not to offer a daily access right for small game hunting on certain days during a given period. For more information or to find out the opening dates for small game hunting, visit the [Sépaq website](#). Migratory bird hunting seasons in wildlife reserves are the same as those in the federal migratory bird hunting districts in which they are located. Refer to the summary of Environment Canada's migratory birds hunting regulations.

During a season of antlered deer hunting, the holder of an [antlerless deer hunting licence \(random draw\)](#) may hunt antlerless deer in the location indicated on their licence. When antlerless deer licences (random draw) are issued for a wildlife reserve or ZEC, the licences for the zone are not valid in these territories and the licences issued for these territories cannot be used in the zone.

If you hold a moose without antlers hunting licence (draw), you must comply with the conditions associated with obtaining it. When moose without antlers hunting licences (draw) are issued for a wildlife reserve or a zec, the zone licences are not valid on these territories, and the licences issued for these territories cannot be used in the zone.
